Sustainable Waste Solutions Hits The Road on Its Inaugural Bus Tour

Souderton, PA (October 13, 2010)—Sustainable Waste Solutions (SWS), a landfill-free waste and recycling company, led its first Sustainability Bus Tour on October 1, 2010 with more than 20 professionals from the region's premier companies and institutions, including Johnson & Johnson, Lockheed Martin, Merck and Country Fresh, Inc. The trip included tours of the FCR Recycling Facility in Camden, NJ, Covanta Delaware Valley in Chester, PA and Peninsula Compost in Wilmington, DE. Contact Dieter Scheel at Dieter@landfillfree.com to reserve your seats for the next Sustainability Bus Tour.

Scott Woodrow, COO of SWS stated, “We wanted to offer our clients the opportunity to observe in person the contribution they are making towards our environment by being green-conscious. You receive a deeper appreciation when you can witness the impact of how your trash is collected and recycled into renewable energy.”

About Sustainable Waste Solutions

Sustainable Waste Solutions, LLC, a locally owned and operated recycling and solid waste services company, is the only landfill-free waste company in our region. Its focus is economic and environmental sustainability. Headquartered in Montgomery County, Pennsylvania, Sustainable Waste Solutions serves its clients throughout Southeastern Pennsylvania, Lehigh Valley and Delaware.
